

Rosette Manufacturing Made Easy!

Rosette manufacturing has never been easier or faster than with MIKRON's Automatic Rosette Machines and our Multi-Profile Rosette Cutters. Built with dependable pneumatics and an air over hydraulic feed system, these machines feed the block of wood under the cutter, hold it securely, make the cut and eject a first class quality rosette all in less than 8-10 seconds*. Our 2 knife, corrugated rosette knife holders are available in three sizes: 2-7/8", 3-1/2" and 4-3/4". The M-2 HS Steel knives cut smooth profiles up to 1/2" deep. A VHS video or a CD-ROM is available demonstrating these machines.

* Depending on type of wood and depth of cut

R200

For 2-1/2" to 5" Blocks

- 3-1/2" Maximum pattern diameter
- 2-7/8" or 3-1/2" Multi-Profile Cutters
- 1/2" Shank
- 7500 RPM

Specifications

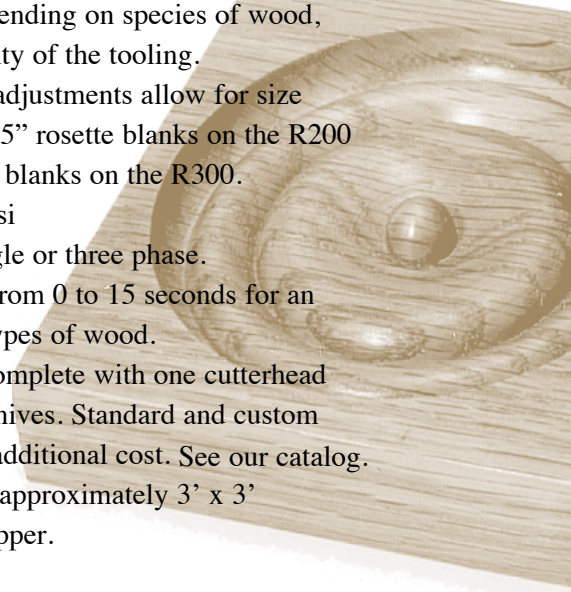

R300

For 5-1/2" to 8" Blocks

- 4-3/4" Maximum pattern diameter
- 2-7/8", 3-1/2" or 4-3/4" Multi-Profile Cutters
- 3/4" Shank
- 3600 RPM

General Information

- Production rates in excess of 300 to 500 pieces per hour are obtainable depending on species of wood, size of the cut and quality of the tooling.
- Two quick and simple adjustments allow for size changes from 2-1/2" to 5" rosette blanks on the R200 and 5-1/2" to 8" rosette blanks on the R300.
- Air requirements: 110psi
- Three horsepower. Single or three phase.
- Adjustable time delay from 0 to 15 seconds for an excellent cut in many types of wood.
- Each machine comes complete with one cutterhead and two sets of blank knives. Standard and custom knives are available at additional cost. See our catalog.
- Floor space required is approximately 3' x 3'
- Height: 30" without hopper.
- Weight: 200-225 lbs.
- Hopper capacity: 40 pieces, approximately 3/4" thick.
